

1

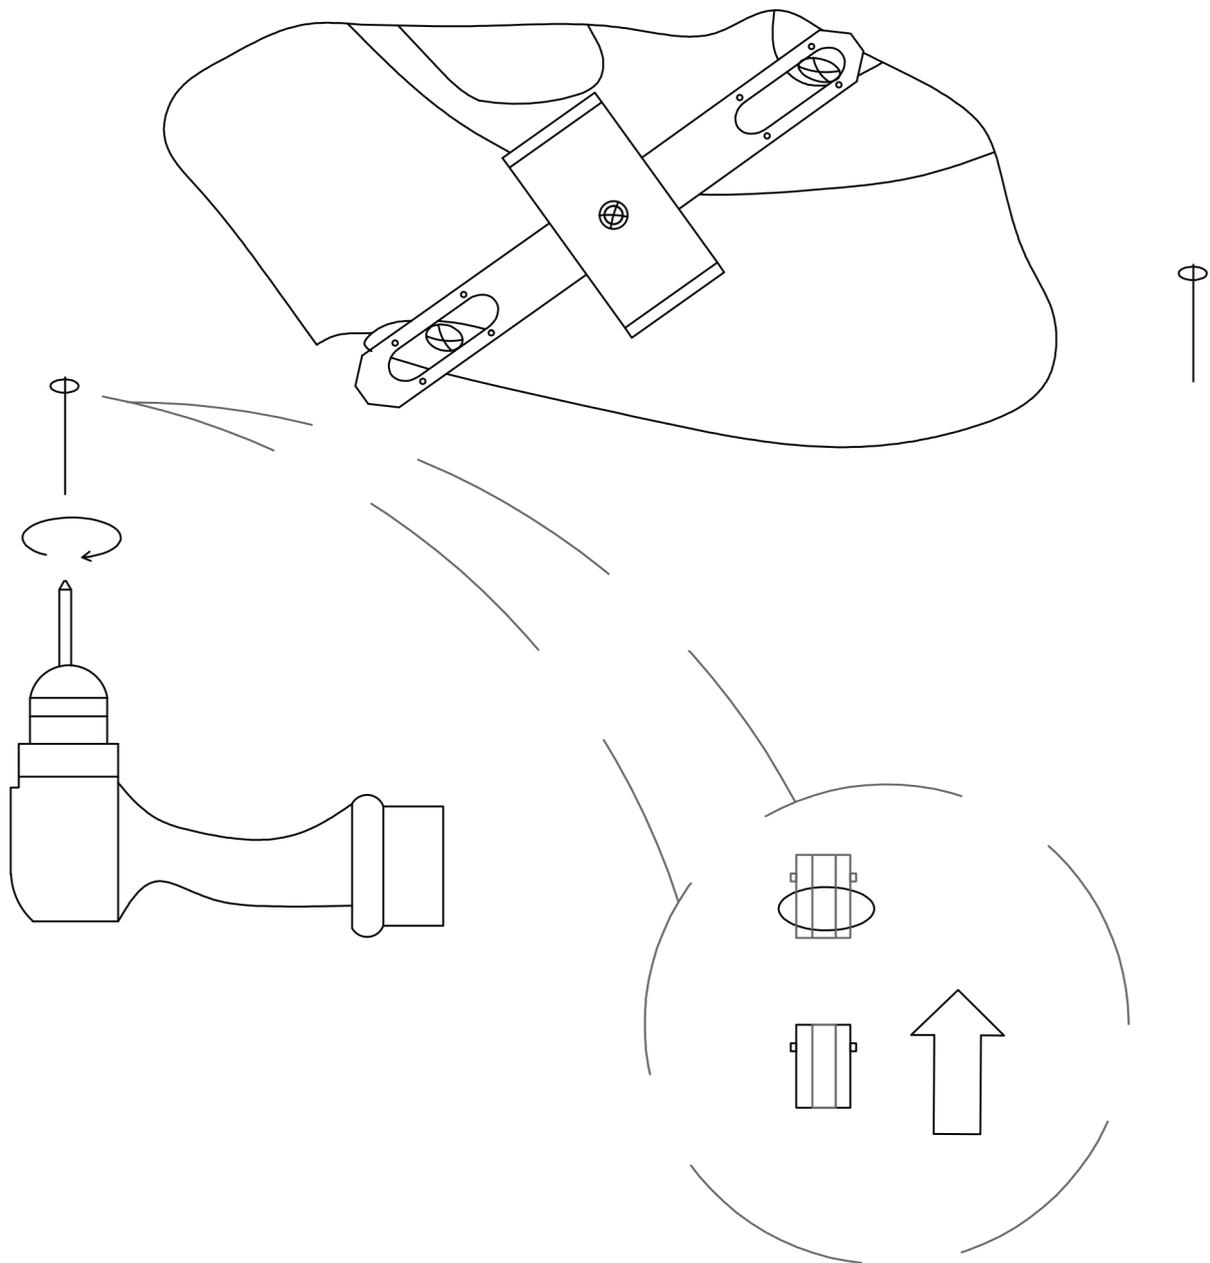

Instale el soporte en la caja por encima del techo.

2

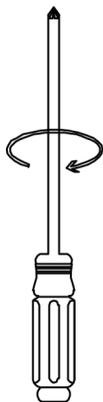

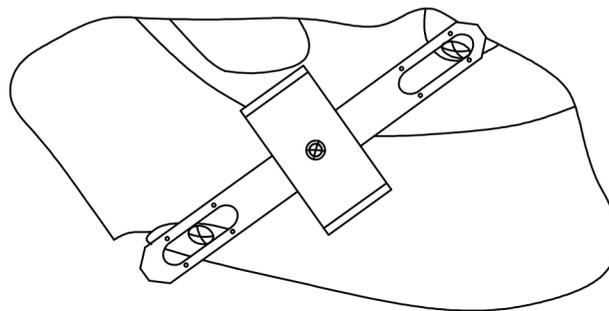

Coloque el riel en el soporte, nivélelo y marque los agujeros. Es recomendable retirar el riel del soporte.

3

**Perfore agujeros e inserte
anclajes en las ubicaciones
marcadas**

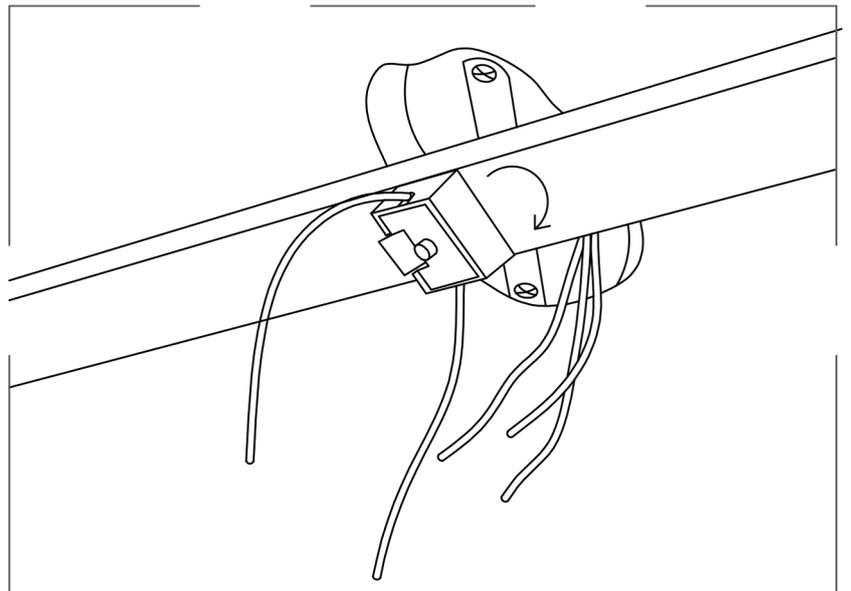

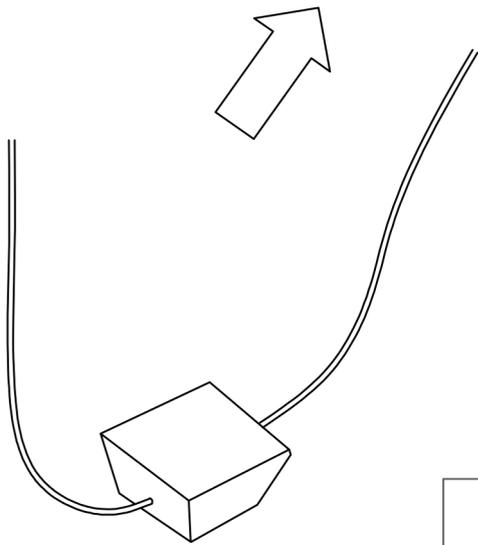

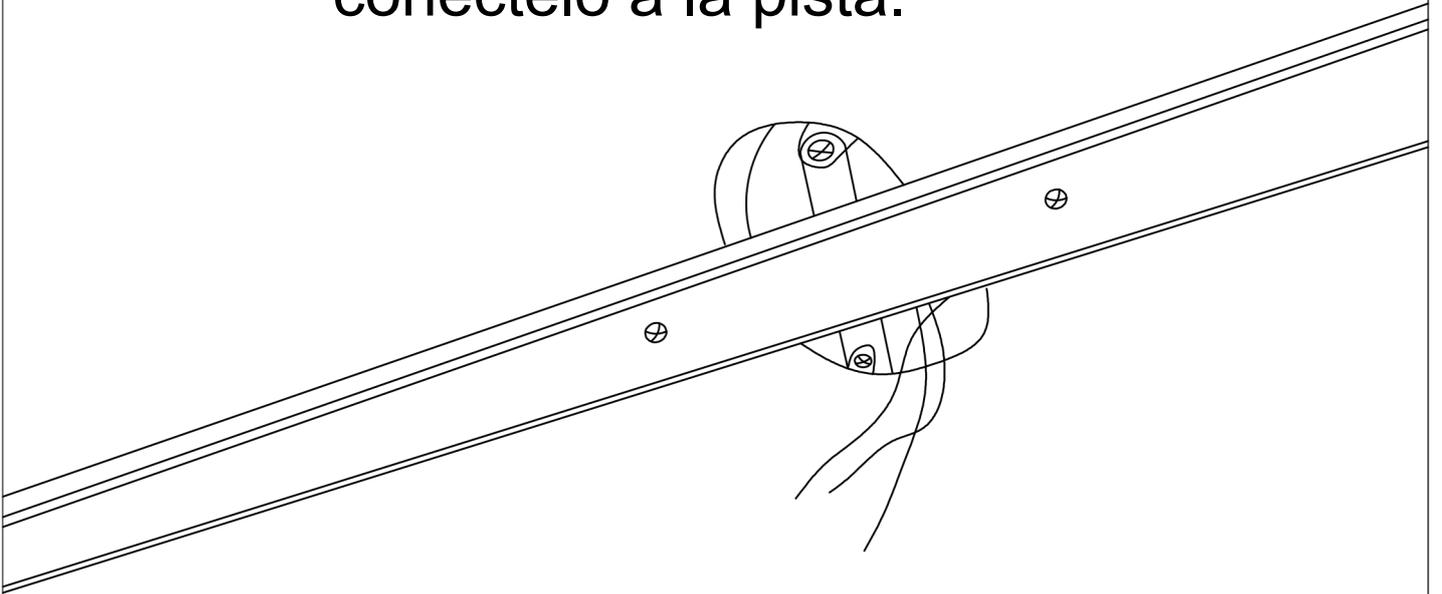

4

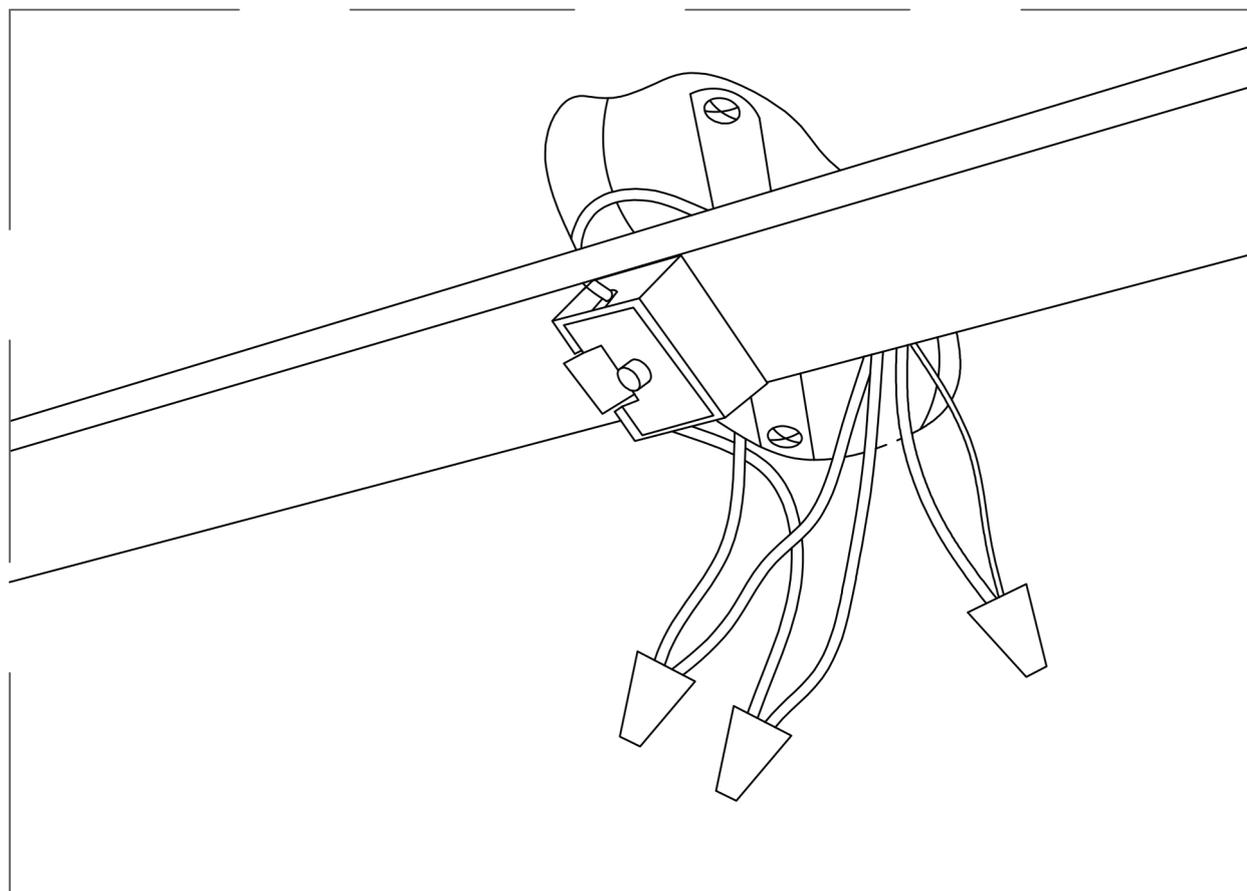

Fijar el riel al techo

5

Retire el módulo y
conéctelo a la pista.

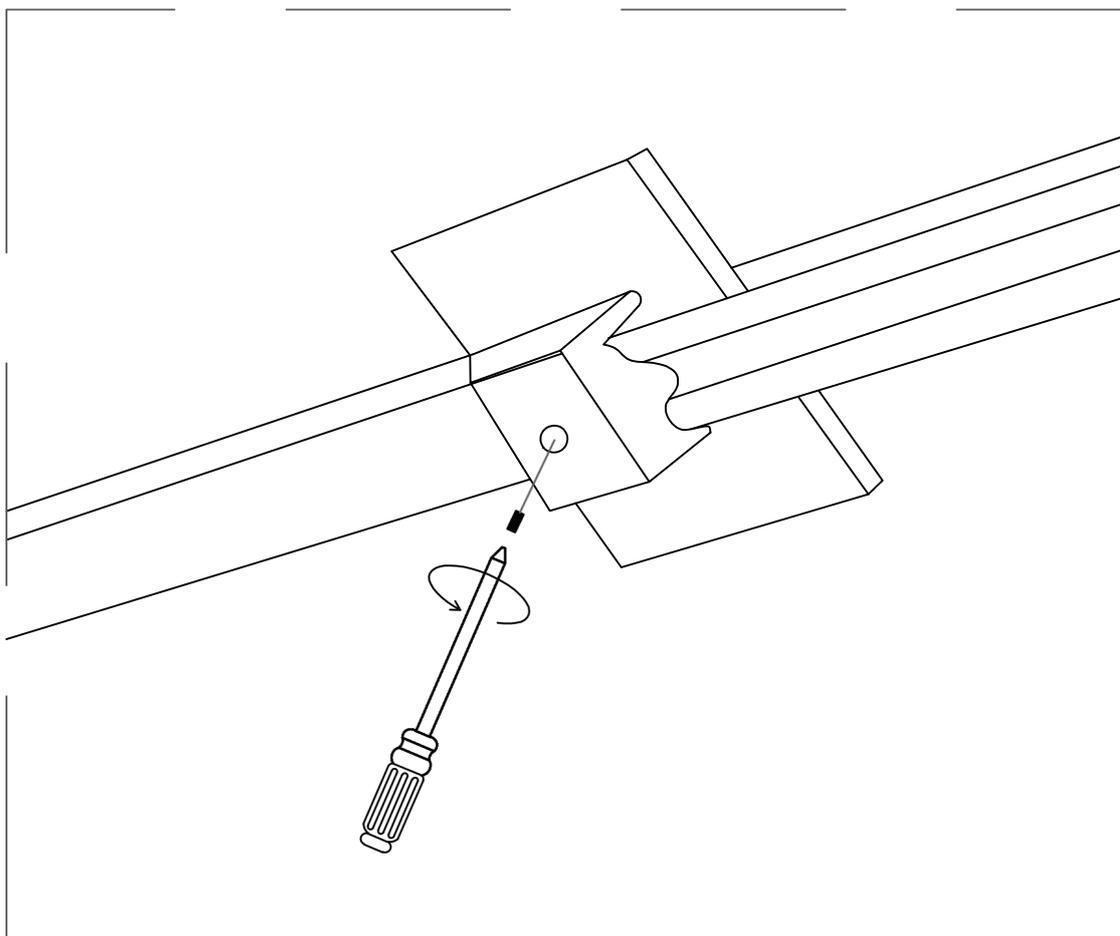

6

Cableado: negro a negro, blanco a blanco, verde a tierra

7

Instale la cubierta decorativa para cubrir la caja.

8
